<b>ES Biography:</b>	<p>I am very excited to be an Educational Supervisor this year ! This is my third year as an ES. I am very fortunate to work within a team that are familiar with having a Foundation Dentist in the practice. The practice has been a training practice for many years, and we all strive to promote a culture of learning and development.</p> <p>I started my dental career in 2017 when I qualified from the University of Manchester. I completed my Foundation Training in Rochdale, and then completed two years of Dental Core Training in OMFS/Oral Surgery in Sheffield, before moving back to Manchester and starting as an associate in general practice. Two years of Dental Core Training allowed me to develop my skillset</p>
----------------------	---

in Oral Surgery, and for this reason I am able to offer complex surgical extractions and IV sedation to our patients. I have also worked as a Specialty Dentist in Oral Surgery at the University Dental Hospital in Manchester, where I taught Undergraduate students Oral Surgery on a one-to-one basis. I am continuing my professional development as I am currently studying an MSc in Dental Implantology with the University of Salford, as well as a PGCert in Teaching and Learning with Edge Hill University. I work in the practice 4 days a week. As an ES I intend to have an open-door policy and to be approachable. I am sure that you will learn lots with us, and have fun.
