

Exam Support

There is a tiered approach to exam support that is embedded within each of the Specialty Schools. The Exam Support TPDs in each specialty are happy to be contacted by trainees regarding support required for their specialty exams.

The Exam Support TPDs can access dyslexia screening via Genius Within for postgraduate doctors, dentists and pharmacists in training as appropriate.

Dyslexia Assessments can be performed with Genius Within according to national guidelines.

The contact details for the Exam Support TPDs are available [here](#).
