We are currently **unable** to provide the following training opportunities (please list)

Gynae scanning

Fetal medicine

Free text comments

Friendly small unit which allows O&G doctors to be in theatre at least once a week and also get specific cases for their portfolio.

Registrars do not do weekday nights (covered by resident consultants instead) - this allows you more weekday training which increases your availability for routine work.

Ideal unit for ST1-5 training. We can support you whilst gaining independence on call.

Can accommodate small numbers of ST6/7 whose needs can be met by our unit.
