

CT1 Psychiatry: Thames Valley

Programme Details

The Core Psychiatry training programme is a 3 year programme, starting at CT1.

During the 3-year programme, the trainee's work will be monitored for satisfactory progress and subject to annual reviews in the form of ARCPs. Progression on the programme will be dependent upon these reviews.

Clinical care will be delivered at a range of sites requiring trainees to travel effectively and efficiently to, for example: Trust sites, patients' homes, police stations, clinics and other associated sites. Travel costs from base location to other sites will be reimbursed at business mileage rates for valid insured drivers/vehicles, and journeys using all forms of public transport (including taxis) will be reimbursed at the public transport rate. The posts on this rotation have been approved for Specialist Training by the GMC & RCPsych. The programme is designed to equip the trainee for Higher Specialist Training in their chosen speciality.

The Postgraduate Dean has confirmed that this post has the necessary educational and staffing approvals. The programme is based in several different Trusts throughout Health Education England - Thames Valley, and trainees may find themselves in any of the following locations:

Training Locations

Hospital	Trust
Warneford Hospital, Oxford	Oxford Health NHS Foundation Trust
Littemore Mental Health Centre, Sandford-on-Thames	Oxford Health NHS Foundation Trust
