	Postcode	BB9 7XH

Practice Profile: (e.g. how many surgeries, equipment, location/area, staff members, dentists with special interests, etc)	Dentistry for All is a busy mainly NHS practice in Nelson, Lancashire. We have nine surgeries, with a skill mix of dental hygienists, therapists and nurses with extended duties. We are easy to find, just off the M65 motorway junction and have staff members who commute from Manchester as well as locally. We provide a broad range of treatments and pride ourselves on proving excellent dentistry on the NHS. We have a long history of being a DFT practice and also have dental therapists on placement within the practice. We have dentists with extra experience in endodontics, paediatrics and oral surgery.
ES Biography:	I qualified from Liverpool in 2013 and completed my foundation year at Dentistry for All. I then worked in Burnley for number of years before re-joining the team in 2019. I became a partner within the practice in March 2022. I have been involved with the training of undergraduate dental students and dental therapy students for three years before becoming an educational supervisor in 2020. I find being a mentor really rewarding and love to see new clinicians grow in skill and confidence. I enjoy the challenges of dentistry and take pride in looking after patients. Outside of work I enjoy spending time with my family, my one-year-old daughter and walking the collie.
