

## HEALTH EDUCATION ENGLAND POST CCT GP FELLOWSHIP – LEADERSHIP FOCUS

### Middleton Health Centre, Hope Citadel Healthcare

We are really excited to offer a fellowship opportunity at our Middleton practice. Are you in your first 5 years post qualifying as a GP? Do you want to develop both your clinical leadership and management skills? Come and learn alongside our Hope Citadel team who over the years have learnt what makes practices go from 'Good' to 'Outstanding' while improving clinical outcomes and supporting local communities to thrive. Middleton is a practice based in a shopping centre – with the gym, Greggs, and Poundstretcher all within a minute's walk from the practice. The brilliant team have previously got 'Outstanding' at CQC and are looking for a GP fellow to contribute to the quality improvement already taking place as we prepare for whatever is next!

Working alongside the rest of the clinical team (including other GPs, nurses, and other roles) and the practice manager, you will build on good systems, develop new ideas, and keep everyone motivated. You will have a mentor who is a clinical lead from another Outstanding practice within Hope Citadel, who will meet with you weekly and support your decision making. You will also join the clinical leads peer group that meet bi-monthly. The fellowship grant will allow you to take on a formal leadership qualification.

*We want you to feel like you have autonomy to make changes, but the framework around you to feel safe.*

Hope Citadel is a Real Living Wage employer, passionate about bringing quality healthcare to the areas that need it most. We look after our staff well, including 13-min GP appointments, and peer groups that meet monthly for newly qualified GPs. There are lots of opportunities for development and to sit and have some tea and cake! Find out a bit more about us here: <https://hopecitadel.org.uk/what-we-do/>

For an informal discussion please speak to Anna on 07707333503 or [anna.pratt@nhs.net](mailto:anna.pratt@nhs.net)
