

NORTH WEST RETURN TO TRAINING COURSE FOR PAEDIATRIC TRAINEES

Course topics include:

**Wellbeing and developments in Paeds training
Practicalities; RTT policy, KIT days, ePortfolio**

Hot topics in Paediatrics, neonatology & safeguarding

Paediatric and neonatal resuscitation scenarios

Skills workshop including clinical skills and safeguarding

These courses aim to support paediatric trainees as they return to training following a period of leave or absence of 3 months or more. Paediatric trainees of all grades are welcome, from any type of time out of training, and the courses are **free** to attend. There will be a team of experienced paediatricians and neonatologists as well as fellow trainees delivering a mixture of lectures and simulations.

We are able to facilitate a small number of babies attending the face-to-face portion of the course if needed; please let us know if you would like this option to attend, spaces would be limited.

Each delegate will be emailed a course pack including helpful resources and references.

Wednesday 4th December 2024

Via teams
