Training Details

(Description of post)

This is a Post-CCST post for 2 years.

These posts are available to commence 1st October 2022 on the Orthodontic Speciality Training Programme in Health Education northwest. The post is 2 years in duration and will satisfy the requirements for ISFE. The Training Programme is based between the University Dental Hospital of Manchester and East Lancashire Teaching Hospital (Burnley). The posts will be allocated an NTN in Orthodontics.

Duties and Responsibilities of postholder

These are non-resident posts at the hospitals in the training scheme.

The appointments are for 12 months in the first instance, renewable subject to satisfactory reports to a total of 2 years. The posts will comprise all aspects of orthodontic practice, including attendance at new patient clinics, management and treatment of malocclusion in children and adults.

There are no out of hours on-call commitments. There is a commitment to cover casual patients according to a departmental rota.

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

Administrative duties will include attendance at departmental meetings and undertaking some departmental administration.

The junior doctor accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

Description of main training site

Orthodontic Department – Manchester Dental Hospital

The clinical facilities were re-equipped in 2017 and are situated in the West quadrant of the dental school. Orthodontics has sole use of 8 fully equipped dental units, plus access to a large multidisciplinary clinic that is composed of its own waiting area, three dental surgeries, one seminar room and oral hygiene room. The clinic incorporates University and Trust network access points on each dental unit

The secretarial offices are next to the main clinical area.

There is also a staff area this is equipped with 4 computers, scanners, printers and digitiser. These computers have access to the AJO and JCO via the network and also direct links to the on-line

versions of the Journal of Orthodontics, European Journal of Orthodontics and the American Journal of Orthodontics.

The Regional Cleft Lip and Palate centre is situated in the new Manchester Children’s Hospital.

Description of second training site

Burnley General Teaching Hospital

The East Lancashire NHS Trust (ELHT) comprises of the Royal Blackburn and Burnley Hospitals. The Fairfield building of Burnley General Teaching hospital in which the orthodontic department is situated was built in 2019. This post holder will work at the Burnley site which is 25 miles from the centre of Manchester, accessible by road or rail. The Trust is the largest provider of secondary care orthodontic services in the region.

There are 4 orthodontic clinical rooms in Burnley with a large onsite laboratory undertaking orthodontic, restorative and maxillofacial prosthetic services. There are 4 orthodontic consultants across ELHT, in addition, there are 6 full time maxillofacial consultants and a restorative consultant. Over 10 years ago we were one of the first hospitals in the UK to undertake orthodontic therapist training now have 2 further orthodontic therapists. There is a high throughput of orthognathic cases (over 50 per year). The Trust has invested in the future with purchase of a da Vinci operating robot and 3D printing equipment. Over the next few years there will be a move toward 3D planning software and purchase of intraoral and facial scanners.
