

HEALTH EDUCATION ENGLAND - NORTH WEST (GREATER MANCHESTER & LANCASHIRE)

Job Description for the post of Post CCST Orthodontics

This post is available to commence 1st October 2022 on the Orthodontic Speciality Training Programme with HEE NW (Health Education England North West).

This is a non-resident post at the University Dental Hospital of Manchester (UDHM) and a District General Hospital in the region. The hospital offering placement for this post is Salford Royal NHS Foundation Trust (Hope Hospital).

The appointments is for two years. The post comprise of all aspects of orthodontic practice including attendance at new patient clinics and treating cases of severe malocclusion including those requiring orthognathic surgery, dento-alveolar surgery, joint restorative care; and orthodontic care of cleft lip and palate patients. There will be participation in postgraduate and undergraduate teaching and attendance at joint clinics with Oral and Maxillo-facial Surgery, Plastic Surgery and Restorative Dentistry colleagues. Facilities are available for research.

1. Duties of the Post

a. On-call Commitment

There are no out of hours on-call commitments. There is a commitment to cover casual patients according to a departmental rota.

b. Study and Training

Study leave facilities are available in accordance with the Terms and Conditions of Service subject to the approval of the Educational Supervisor and the Programme Director.

c. Administration

Administrative duties may include attendance at departmental meetings and some departmental administration. The appointee will be responsible for organisation of joint orthognathic and hypodontia clinics.

The Post-CCST accepts that he/she will also perform duties in occasional emergencies and unforeseen circumstances at the request of the appropriate Consultant, in consultation where practicable with his/her colleagues both senior and junior. It has been agreed between the profession and the Department that while juniors accept that they will perform such duties, the Secretary of State stresses that additional commitments arising under this sub-section are exceptional and in particular the juniors should not be required to undertake work of this kind for prolonged periods or on a regular basis.

d. Research

Participation in research will be encouraged. The Unit of Orthodontics at UDHM is presently active in randomised trials of the effectiveness of orthodontic treatment; the organisation of orthodontic services; effectiveness of orthognathic surgery; stability of functional appliance correction; 3D analysis of treatment effects; and in conjunction with the Cleft Lip and Palate Unit a range of Clinical RCTs in cleft care and development of online outcome assessment. The John Rylands University Library is in close proximity.

e. Teaching

The appointee will be involved in the theoretical teaching and clinical supervision of undergraduates. He/she will also participate in the occasional short courses and lectures organised for practitioners, DCTs and ancillary staff. He/she will participate in the training programme for postgraduate students entering the Regional Specialty Training Programme.

2. Main conditions of Service

- a. The post is covered by the Terms and Conditions of Service of Hospital Medical and Dental Staff.
- b. The appointee would be required to live within a reasonable distance from the base hospital. The agreement of the Authority to removal should be sought prior to entering into any removal arrangements, expenses will be reimbursed and grants paid only when the Authority is satisfied:
 - that the practitioner is an eligible practitioner in accordance with
 - the regulations;
 - that the removal of the practitioner's home is required;
 - that the arrangements proposed are reasonable.

3. Conditions of Appointment

The appointment will be subject to a satisfactory medical examination and CRB check.

The posts are available from 1st October 2022

The posts

University Dental Hospital of Manchester, Central Manchester and Manchester Children's University Hospitals NHS Trust

The Dental Hospital is a specialised hospital located in the university area and engages in all aspects of dental teaching and clinical care. The Unit of Orthodontics includes the following:

NHS Staff

Mr David Waring	Consultant in Orthodontics, TPD
Miss Mariyah Nazir	Consultant in Orthodontics, Associate MD
Mr Richard Needham	Consultant in Orthodontics
Miss Victoria Elton	Consultant in Orthodontics, Clinical Lead
Mr Simon Watkinson	Consultant in Orthodontics
Mr Jonathan Smith	Consultant in Orthodontics
Mr Ovais Malik	Consultant in Orthodontics
Miss Hanieh Javidi	Consultant in Orthodontics/ SL in Orthodontics
Miss Madeleine Storey	Consultant in Orthodontics
3 Orthodontic Therapists	

Academic Staff

Mr Stephen Ward	Academic Programme Director
Dr. Ahmed El-Angbawi	SL in Orthodontics

The clinical facilities were re-equipped in 2001 and are situated in the West quadrant of the dental school. Orthodontics has sole use of 8 fully equipped dental units, plus access to a large multidisciplinary clinic that is composed of its own waiting area, three dental surgeries, one seminar room and oral hygiene room. The clinic incorporates University and Trust network access points on each dental unit

The secretarial offices are next to the main clinical area.

There is also a staff area this is equipped with 4 computers, scanners, printers and digitiser. These computers have access to the AJO and Angle CDROM via the network and also direct links to the on-line versions of the Journal of Orthodontics, European Journal of Orthodontics and the American Journal of Orthodontics.

The Regional Cleft Lip and Palate centre is situated in the new Manchester Children's Hospital.

Research facilities

The main academic and research accommodation is situated in the Coupland III Dental School Annexe. This comprises staff accommodation, audio visual rooms, postgraduate study room and postgraduate seminar room.

The academic secretarial support is obtained through one full time programme administrator.

The post CCST trainee will undertake complex orthodontic treatment on cases with severe malocclusions. The department runs a number of MDT clinics each month in conjunction with colleagues from the restorative, maxillofacial and paediatric dentistry departments. The dental hospital has a CBCT scanner to aid in the diagnosis of these most complex cases.

There is also a staff area this is equipped with 4 computers, scanners, printers and digitiser. These computers have access to the AJO and Angle CDROM via the network and also direct links to the on-line versions of the Journal of Orthodontics, European Journal of Orthodontics and the American Journal of Orthodontics.

Cleft Lip and Palate Care

The North West Cleft Lip and Palate network operates out of two centres across the region; Royal Manchester Childrens Hospital and Alder Hey Childrens Hospital Liverpool with approximately 150 births per year. The new purposed built facility in the Royal Manchester Childrens Hospital is a 15 minute walk from the Dental Hospital.

The dedicated cleft unit provides the post CCST trainee the opportunity to treat patients under the direct supervision of the cleft orthodontic team. The trainee can also attend the full range of clinics held by the specialist groups within the cleft unit such as the Nasendoscopy clinic, Speech therapy and new baby clinics.

There is also the opportunity to attend the craniofacial clinics which are based at Alder Heys Childrens Hospital.

District General Hospital Placement

Royal Salford University Foundation NHS Trust

The Trust comprises Hope Hospital, Salford and associated Units. It is an integrated provider of hospital, community and primary care services, including a University Teaching Hospital. It has 6000 staff providing services to the City of Salford. It is currently in the final phase of a £200million redevelopment scheme.

Orthodontic Department

Orthodontic Staff

Miss Sara Hosni	Consultant Orthodontist
Mr Ovais Malik	Consultant Orthodontist
StR Orthodontic	
Orthodontic therapists	

Other Clinical Staff

Consultant Oral and Maxillofacial surgeon
Junior and Non-Career Grade oral surgery staff
Hygienist

There are 4 multipurpose dental surgeries and one consulting room.

The appointee would be expected to take an active role within the department. Particularly taking a lead in audit and clinical governance which is well established in the Trust. The department is shared with maxillofacial colleagues with whom regular orthognathic joint clinics are undertaken.

The maxillofacial laboratory is situated within the department. This carries out a wide range of maxillofacial prosthodontic work, in addition to routine and specialised orthodontics. The hospital has a large medical illustration department
