<b>DFT Website</b>	<p><a href="http://www.genixhealthcare.com">www.genixhealthcare.com</a></p>
<b>DFT Practice Profile</b>	<p>Genix Dental Clinic in Morecambe is a modern, well-equipped practice with eight surgeries. We have an OPG, microscope, scanner Trios5, WaveOne endodontic system, digital radiography with the latest Rinn Xcp holder on site. The practice is also recognized as an ETP for year five dental students. A phantom head room and portable suction are located within the practice. We offer all our patients an excellent standard of care with full disabled access. Genix staff is a very competent, experienced and friendly team that supports dental students and dentists whole year round. The practice is close to Lancaster, where the MaxilloFacial Department is based.</p>

## DFT ES Biography

I have over twenty years of experience in endodontics, restorative dentistry, prosthodontics, dental surgery, periodontics, paediatric and preventive dentistry. During my career I have worked in Poland, Germany and since 2007 in Lancashire. Through a selection of additional courses, I broadened my expertise in periodontics, endodontics and dealing with children as well as anxious patients. I keep up to date with the GDC guidelines and regulations to ensure that they are fully implemented. I was involved in mentoring PLVE and supervising dental students. Since September 2022 I have accepted the role of Lead Clinician of two of Genix practices (Morecambe and Blackpool)

I enjoy working in a busy surgery providing a full range of dental treatment to patients to help them regain and maintain oral health. I consider myself as an ambitious and approachable person who likes working in a team environment. I am enthusiastic about my work and look forward to sharing my knowledge and support the Foundation Dentist with their career development.
