MANCHESTER UNIVERSITY NHS FOUNDATION TRUST

JOB DESCRIPTION

Post CCST Trainee PAEDIATRIC DENTISTRY-2 YR PROGRAMME

Job Profile

A Specialty Trainee ST4 appointment in Paediatric Dentistry is available. (Post-CCST).

The objective of this training program is to further training Post-CCST. Following completion of the Intercollegiate Specialty Fellowship Examination [ISFE], the trainee would be eligible to apply for a Consultant post in the Specialty.

The post is based between University Dental Hospital in Manchester [UDHM] , Royal Manchester Children's Hospital [RMCH]. Opportunities also exist for short placement periods at other regional training units

Introduction

The Paediatric Dentistry Service provides specialist comprehensive dental care from birth to adolescence. Most of the clinical work involves diagnosis and management of oral health problems in children with complex dental or medical problems, anxiety and behavioural disorders, and advanced trauma. Services are provided on two sites - at the University Dental Hospital of Manchester (UDHM) in the recently refurbished Department of Child Dental Health, with its dedicated sedation suite, and in the new Royal Manchester Children's Hospital (RMCH), which opened in June 2009 and houses a dedicated, state-of-the-art, Dental Health Unit for young children & adolescents with medical co-morbidities.

The Regional service serves a population of 2.6 million in the Greater Manchester area, extending to approx. 6 million from Staffordshire in the South, Barrow in the North, Cheshire in the West and Derbyshire and parts of West Yorkshire in the East.

THE POST

This post offers excellent training opportunities and co-ordinated higher education at the University Dental Hospital in Manchester & Royal Manchester Children's Hospital.

The trainee will follow a 2 year full time period of clinical training. Towards the end of the training period, the trainee will be required to pass the Intercollegiate Specialty Fellowship Examination in Paediatric Dentistry (ISFE), the end-point of Higher Specialist training. At the completion of training, the trainee will be eligible for appointment to a Consultant post in Paediatric Dentistry.

The trainee will acquire the appropriate knowledge, skills, attitudes, and judgemental abilities to meet the oral health needs of infants, children and adolescents, including those with special needs and complex medical disorders. The trainee will be expected to develop the management skills and enhanced critical appraisal skills necessary for working at Consultant level.

An FTN will be awarded to the successful candidate, and this will be the training number throughout the two year period.

Entry Requirement

Appointment to this training post in Paediatric Dentistry is conditional upon the successful completion of an SAC approved 3 year Specialist Training programme or equivalent, success in the MPaed Dent examination, and possession of a CCST in Paediatric dentistry.

DATE WHEN POST IS VACANT

The post is available from September 2022

For preliminary discussion contact:

Ms. Vidya Srinivasan
Consultant in Paediatric Dentistry
Child Dental Health, University Dental Hospital Manchester
Higher Cambridge Street M15 6FH
vidya.srinivasan@mft.nhs.uk Secretary [Tue-Fridays] 0161 275 6614

Shortlisted candidates will be invited to visit [virtually OR face to face] the hospitals concerned.

THE TRAINERS

The appointee will be responsible to the Training Programme Director, Ms. Vidya Srinivasan, for the satisfactory performance of their duties and responsibilities. Full clinical support for training will be given by Consultants and Specialists within the Department in both Hospitals

CORE SENIOR STAFFING

University Dental Hospital Manchester

Royal Manchester Children's Hospital

Dr K Hood	Consultant
Mrs A Shepherd	Specialist

Duties of the Post

Clinical and administrative sessions will be timetabled in the Dental Health Unit, (RMCH) and the University Dental Hospital Manchester.

1. The trainee will carry out such clinical tasks assigned to them by the Senior Staff. These will include:

- a) Treatment of inpatient and out- patients who are medically compromised children, those with learning difficulties and those with special care requirements.
- b) Participate on multidisciplinary team clinics and planning and working closely with other dental specialties - Orthodontics, Medical Specialities and Oral and Maxillofacial Surgery, Oral medicine and Restorative Dentistry.
- c) Treatment sessions at Royal Manchester Children's Hospital, will be provided under general anaesthesia for children who, because of their physical, medical, mental, or emotional condition, are unable to accept conventional comprehensive treatment.
- d) Management of theatre waiting lists and liaison with Admin staff to ensure appropriate prioritisation and planning of GA lists.
- e) Organisation and treatment in the Adolescent Intra Venous Sedation service at UDHM

2. Support, train and give advice and assist the junior dental staff in training.

3. Full participation in Clinical Governance and Clinical Audit is mandatory. The trainee will be expected to assume a lead role in Clinical Audit and to co-ordinate Departmental meetings.

4. Projected Weekly sessions:

Clinical contact /treatment sessions per week: 4 [INCL 1XPATIENT ADMIN/AUDIT]

- Theatre sessions per week: 1
- Ward rounds/sessions per week: 1
- Out-patient clinics per week: 3
- Study sessions per week: FES X 1

Study and training

1. The post is recognised by the HEE NW and Specialist Advisory Committee in Paediatric Dentistry as providing suitable advanced training in the specialty.
2. The successful candidate will have ample opportunity and every encouragement to build on the knowledge, skills and abilities already gained through NTN training.
3. Opportunities exist to consolidate existing experience in:
 - a. Sedation [Inhalation and anaesthetist led adolescent Intra Venous]
 - b. Complex Dental Trauma management
 - c. Comprehensive management of children with complex medical conditions
 - d. Paediatric Oral Surgery / Oral medicine
 - e. Multidisciplinary management of dental anomalies / hypodontia
 - f. Cleft Lip and Palate
4. Regular appraisals of progress with an Educational Supervisor will be expected.
5. Attendance at appropriate management training courses will be encouraged.

6. Participation in the ARCP process is required.
7. Completion of the Advanced Competencies for Paediatric Dentistry will be expected. The trainee will be required to demonstrate clinical experience via their clinical logbook.
8. Full participation in clinical education seminars with other Specialist Trainees is expected. This may include the delivery of presentations and attendance at appropriate study days and courses.
