| Practice Profile: (e.g. how many surgeries, equipment, location/area, staff members, etc) | The practice is located in Heswall, which is a small town on Wirral. It has good commuter links and nice range of shops within walking distance. Offering NHS, Denplan and private care, we are a busy 6 surgery practice, with 5 part-time dentists, two therapists and 13 nursing and reception team members. All the surgeries are ambidextrous. We are fully computerised and have rotary endodontic equipment. When you join our team, you will be given full clinical freedom in a supportive environment. We look forward to welcoming you. |

| ES Biography: | Hello. My name is Kate Preston. I qualified as a dentist in 2006 from the University of Liverpool. I became co-owner of Heswall Dental Practice in 2018. I now solely work in primary care, having recently left my specialty dentist role at Liverpool Dental Hospital where I was working in the Unit of Oral Rehabilitation. I decided to spend more time in practice because we are very busy, and I wanted to improve access for patients seeking care who have been unable to see a dentist during the pandemic. Outside work I enjoy running and weight training and a cheeky drink at the local pub. I have two teenage children and two sausage dogs who also keep me busy. |
