 Friday – 9AM – 3PM

ES Biography:	I graduated in 2011 from Leeds University and began working in Manchester City Centre in an NHS and private dental practice. I
----------------------	--

then relocated to be closer to home and began working in mine and my wife's dental practice. Since qualifying I've completed post graduate exams to become a member of the faculties of general dental practitioners. I've also completed training in Implantology as well as sedation courses to help treat those with dental anxieties. I have an oral surgery and sedation clinic in which my FDs dentist have previously shadowed an oral surgeon to help increase confidence with surgical extractions. I enjoy restoring confidence to my patients by improving their smile. I also get great reward from training other dentists. I have previously been a ES for a number of years and have had the opportunity to keep on some of my FDs on as associates. I have really enjoyed seeing them develop into dentists that I am proud of as having part of our team. In my spare time i enjoy cycling going to the gym and taking part in car track days as well as spending time with family.
