ES Biography:	<p>I have been a general dental practitioner since graduating in 2014, from King's College London. I am passionate about providing the highest standard of general dental care to my patients, as well as having a keen interest in aesthetic restorative dentistry. I have undertaken a number of post-graduate courses</p>
----------------------	--

to enhance my knowledge in the area of occlusion, restorative dentistry and, soon to complete, further training in advanced endodontics as part of working towards my PgDip in restorative dentistry with Aspire Dental Academy. This will be my first year as an educational supervisor, I feel I am now ready and well-equipped to help a newly qualified dentist navigate the reality of general dental practice. I can offer help and guidance through all its challenges and rewards, so the FD can thrive in their clinical practice and build relationships with patients who will be receiving their care. I always have a friendly and approachable manner and I am sure the FD will feel supported and happy with their first year at Cheshire Dental Centre.
