

SCHEME NAMES FOR HEALTH EDUCATION ENGLAND NORTH WEST – 2020 – 2021

Please see attached a **soft** guide to the new schemes. I must remind you that this is only meant to be a loose guide. There may be some practices not within these defined geographical areas because it depends on the number of successful Educational Supervisor applicants that are received. For example, if a geographical area is oversubscribed with successful ES practices, then some practices might be allocated to a different scheme, even though they are not necessarily in that geographical area. Please be aware of this risk. Additionally, I would like to inform you that just because that practice was on the scheme last year doesn't mean they are going to be a training practice this year. I do hope this helps you.

Good luck with your studies and we look forward to seeing you in the near future. Please let me know if there is anything else you require.
